SKILLS

- **Data Science, ML/Ai:** Data Wrangling and In-Depth Anaylsis, R, Tableau, Power BI, TensorFlow, Apache Spark & Hadoop, Keras, D3.js, Excel, Jupyter, SAS, PyTorch, top DS/ML Python libraries, AutoML, top ML Cloud-based services, NLTK
- **Frontend:** HTML, CSS, JS, TS, React, Vue, Angular
- **Backend and misc:** Python, Node, Java, C#, PHP, Django, Express, Spring-Boot, ASP NET Core, Laravel, WebSockets, Git, GitLab CI/CD, Domains, HTTPS, Data-Structures, Algorithms, LLM/AI-integrated programming
- **Cloud:** GCP, AWS, Azure, Heroku, Object-Storage, Key-Management-Service, Docker & Kubernetes, Databases, reCaptcha, OAuth, CDNs
- **Database:** MySQL, PostgresSQL, OracleSQL, MS-SQL Server, Apache Cassandra, MongoDB Atlas, Redis Cache
- **Soft:** Problem-solving, Learning on the fly, critical and independent thinking, focused hard working, communicating, time-managing, emotional-intelligence, open-mindedness, positive-attitude, adapting

Rishav Ray

Data-Science, ML/AI/Software Engineering, etc.

PROFESSIONAL SUMMARY

Dedicated 21-year-old self-taught lifelong learner, valuing skill over degree, eager to break into the fiercely competitive job-markets of data-science(DS), machine-learning(ML), artificial-intelligence(AI), frontend, backend, database, cloud-computing, etc.. Equipped with the universe at his fingertips and experienced through usage of extremely cheap but valuable online DS/ML/AI resources, Github personal projects (Megagram, DSAHelper), & LeetCode, he is passionate about solving problems and delivering meaningful results to the company he's loyal to. Committed to continuous growth and making a positive impact on the world, one step at a time.

RELEVANT EXPERIENCE

**DATA SCIENCE, ML/AI ENGINEERING ENLIGHTENMENT ·**  
*Online Learner · Apr 2025 - Jun 2025*

- Earned an average of 95% across all the relevant assignments/tests in a total of 10 extremely cheap but valuable courses across Coursera & DataCamp. Proof of this will soon be published in <https://github.com/rishavry/WorksPresentation/wiki>.
- Built a significant amount of my abilities with the help of free but valuable YouTube videos, ChatGPT responses, and informative online articles. Soon my notes on what I learned from this will be published in <https://github.com/rishavry/WorksPresentation/wiki>. I'm always open to working on take-home-assignments to prove my worth!

**PROJECT MEGAGRAM · Sole Developer · June 2024 - June 2025**

- Utilized a myriad of frontend(for website), backend, database, & cloud technologies to power the services of Megagram, a comprehensive, self-directed, skill-building personal project--without a user-base--that combines a bit of both Instagram & Amazon.
- See 'Relevant Experience' section of important link #1 for more info. Or, visit the Megagram Github organization at this [link](#), but first be sure to read the disclaimer in the README.md file of any of the following repositories- Login-Register, Home-Page, & Reset-Password!
