- **Soft:** Problem-solving, Learning on the fly, critical and independent thinking, focused hard working, communicating, time-managing, emotional-intelligence, open-mindedness, positive-attitude, adapting

Relevant Experience

Project Megagram · Sole Developer (June 2024 - June 2025)

- Utilized a myriad of frontend(for website), backend, database, & cloud technologies to power the services of Megagram, a comprehensive, self-directed, skill-building personal project--without a user-base-- that combines a bit of both Instagram & Amazon.
- See 'Relevant Experience' section of important link #2 for more info. Or, visit the Megagram Github organization at this link, but first be sure to read the disclaimer in the README.md file of any of the following repositories- Login-Register, Home-Page, & Reset-Password!
