RISHAV RAY

+1 (608) 443-7805 | rishavray422@gmail.com | Verona, WI, USA

PROFESSIONAL SUMMARY

Dedicated 21-year-old US-Citizen who is a self-taught lifelong learner, valuing skill over degree, eager to break into the fiercely competitive job-markets of frontend and/or backend software engineering, databases, cloud-computing, etc. Equipped with the universe at his fingertips and experienced via Github personal projects (Megagram, DSAHelper), he is passionate about solving problems and delivering meaningful results to the company he's loyal to. Committed to continuous growth and making a positive impact on the world, one step at a time.

RELEVANT EXPERIENCE

Project Megagram   **Verona, WI, USA**
Solo Developer of Personal Project (No Users, Focused on Building Skills)   *June 2024 - June 2025*
- Utilized a myriad of frontend, backend, database, & cloud technologies to power the services of Megagram, a comprehensive personal project that combines a bit of both Instagram & Amazon.
- See 'Relevant Experience' section of my portfolio-website(https://the-works-of-rishav-ray.com) for more-info. Or, visit the Megagram Github organization at this URL(https://github.com/MegagramProject), but first be sure to read the disclaimer in the README.md file of any of the following repositories- Login-Register, Home-Page, & Reset-Password!
